### Collective protection systems according to DIN EN 13374:2013 and DIN EN ISO 14122-3:2002

Dear Mr Mahr,

We herewith confirm that the technical tests performed at your place at the collective protection systems, type: Guard on Top and Dome on Top were completed with a positive result.

The assembly took place on the following surfaces:

- Applied on bitumen roofing membranes
- On bitumen roofing membranes with weight loading
- Applied on PV film
- On PV-film with weight loading (gravel)
- Riveted on trapezoidal steel profiles

Moreover we took note of the change in the product name of Stabilik II to Guard on Top resp. Dome on Top.

The documented test report will be created after submitting the production documents.

Kind regards  
DEKRA EXAM GmbH

Volker Mühlenbruch
