ABS Installation Set

For lifeline systems and anchorage points

We have included all the most important tools that you will need to install an ABS-Lock SYS lifeline system or an ABS-Lock anchorage point in our ABS Installation Set. We supply this toolkit in a practical rucksack which you can easily carry on your back on the way up to the roof. Our choice of equipment includes only top-quality products with a long life cycle.

Whether you want to securely hammer in an ABS-Lock III-BE support into a concrete surface or shorten the stainless steel cable of your lifeline system to the right length - our practical ABS Installation Set ensures you always have the most important installation tools to hand. And whether you are a roofer, carpenter, plumber or installation technician - this is all you need, if you want to install your complex, high-quality anchorage devices using professional tools.
